Customer

Arizona State University (ASU) has developed a new model for the American Research University. It creates an institution that is committed to excellence, access and impact, measuring itself by those it includes, not by those it excludes. This institution of higher education pursues research that contributes to the public good, and assumes major responsibility for the economic, social and cultural vitality of the communities that surround it.

Challenge

ASU's development, integration and deployment of technologies to better serve their students, staff and instructors is constrained by the availability and cost of technical resources. This is primarily a shortage of experienced employees specializing in application development and WCM deployment. ASU looks for ways to utilize web and mobile technologies to provide the best overall educational experience, and is considered to be on the forefront of current trends in technology. As such, ASU is constantly developing and testing these new technologies and consequently needs a technology services delivery model that is sustainable, consistent and scalable.

Solution

Eagle Creek was engaged to deliver a number of projects including: Java & .NET– Applications and web site developments, BI – Dashboard application and data warehouse development support for the Business Intelligence group, Drupal - Content Management System support in developing themes and modules.

Eagle Creek at a Glance

In 1999, Eagle Creek was founded to deliver a technology value proposition that positively impacts your business. We focus on customer-facing technologies – from CRM to App Dev to Mobility – helping our clients succeed in digital business.

We combine on-site expertise with our offsite (but onshore) consultants based in our four technology centers in the upper Midwest.

Through this model, we help you reduce your backlogs while optimizing your IT budget. Achieving this consistent and sustainable way to provision digital consulting capabilities to you has meant investing in America, where Eagle Creek has become the leader in U.S. Onshoring.

Eagle Creek is now an Eviden business.
