Challenge

Anthem, a significant user of offshore, needed a U.S. based alternative. An onshore organization capable of: scaling resources based on the needs of projects, experienced in supporting and integrating into offshore teams, depth and breadth in data-related technologies and expertise in customized application development.

Solution

Eagle Creek provided multiple onshore teams to Anthem, including:

- 24x7 Informatica Tier 3 support team for U.S. and offshore change requests.
- Data warehousing team supporting Anthem's enterprise-wide Teradata warehouse.
- Business Intelligence teams building mandatory state healthcare reports.
- Application development teams building new web applications to support the changing requirements of the business.
- On-demand technology teams to supplement and support new or ongoing projects.
- Metadata management and support team.

With these onshore teams, Eagle Creek eliminated numerous high-cost onsite resources while replacing offshore teams that could not meet the quality demands of the Anthem organization.

Eagle Creek at a Glance

In 1999, Eagle Creek was founded to deliver a technology value proposition that positively impacts your business. We focus on customer-facing technologies – from CRM to App Dev to Mobility – helping our clients succeed in digital business.

We combine on-site expertise with our offsite (but onshore) consultants based in our four technology centers in the upper Midwest.

Through this model, we help you reduce your backlogs while optimizing your IT budget. Achieving this consistent and sustainable way to provision digital consulting capabilities to you has meant investing in America, where Eagle Creek has become the leader in U.S. Onshoring.

Eagle Creek is now an Eviden business.
